INNOVATION IN CARPET AND FLOOR CARE

EDIC... ON THE MOVE

Our company was founded in 1975 with the goal of designing and developing the most innovative, productive and durable carpet care equipment and cleaning systems on the market.

That vision holds true today as EDIC continues to expand with new product lines, patented innovations, accessories, and the support of a knowledgeable staff focused first and foremost in customer service and support.

We thank you for your interest in our products and look forward to a successful new or continuing business relationship with you.

ENDEAVOR (Patents Pending)

No matter what the surface type is, or where it is located, it can be easily reached, cleaned and restored by the new Endeavor multi-surface cleaner from EDIC.

Finally there is one compact and powerful solution for heated carpet & upholstery extraction, hard surface restoration, and touch-free restroom cleaning.

With a unique upright, ergonomic design for easy transport, durable construction, and user-friendly operating features, the Endeavor is the perfect cleaning tool tailored to fit each unique cleaning process.

Productivity is key in today's competitive world, the Endeavor provides your facility the ultimate cleaning tool to reach your maintenance goals quickly and effectively.

FEATURES

- One machine, three restorative functions
- In-line heat and adjustable cleaning pressure: provides cleaning power and versatility for upholstery, carpet and hard surface cleaning (heat for carpet cleaning only)
- Powerful 8.4" Infinity Vacuum: quick water recovery and even quicker dry times.
- Auto-fill/Auto-dump: uninterrupted cleaning improves productivity
- Ergonomic dolly style design, large rear wheels, handle casters, built-in skid rails, wand and tool storage: easy to maneuver, load, unload and transport by one person
- Fan cooled motor compartment: provides longevity to electrical motors and critical components
- Circuit locator: prevents blown fuses and tripped breakers
- Large recovery tank and solution tank opening: easy access for cleaning the recovery tank and filling the solution tank
- Convenient front mounted controls on top: no stooping or bending to operate

One Machine Provides Many Restorative Cleaning Functions

CR2 - COMPLETE RESTROOM RESTORATION

TOUCH-FREE RESTROOM RESTORATION SYSTEM

Maintaining a clean and healthy restroom environment at any public facility can be challenging if you don't have the right tools for the job. The **CR2** from EDIC simplifies restroom cleaning for professional cleaners and provides a proven **touch-free cleaning system** for unmatched cleaning results that you don't have to get your hands dirty to achieve.

Deep Clean Restrooms Without Getting Your Hands Dirty

- Touch-free restroom cleaning system that deep cleans where mop and bucket fail, leaving the restroom clean and healthy
- Adjustable 600 psi pump provides versatile and effective cleaning into the porous tile and grout lines and hard to reach places
- Pump adjusts down to 200 psi in rinse mode to reduce splashing and overspray when rinsing toilets and other fixtures
- Clean carpet with HEAT! Optional 2000 watt heater boosts cleaning performance
- Complete System: Squeegee wand with dual head, spray gun, gulper tool, QuickDri, hand squeegee, sink attachment, and hoses included
- Built-in auto chemical feed system for high productivity and accurate metering
- Wand, gun, and hose caddies designed for easy transport and storage
- Large 17 gallon capacity for long run-times
- Optional carpet cleaning kit for deep restorative carpet and upholstery cleaning
- Simple two bolt access to components for easy maintenance and service
- Laminated operations card with links to training videos

Key Features

Specifications:

Pump	600 psi/.85 GPM
Water Lift	138"
Tank Construction	Polyethylene
Baseplate	¼" aluminum
Rear Wheels	10" non-marking
Casters	4" locking
Power Cord	50 ft. cord, GFCI Onboard machine
Dimensions	39"H x 37"L x 22"W
Weight	108 lbs.
Electrical Draw	14.5 amps
Vacuum Hose	45' x 1.5" diameter, 50% stretch, 50% wire supported
Solution Hose	50' high pressure
Squeegee	Swivel wand with squeegee/brush head
Pressure Gun	Durable high/low pressure
Exhaust Hose	45' x 1.25" Diameter, stretch hose
QuickDri Tool	Reducer cuff and hand tool
Warranty	5 year parts & labor, lifetime on body

GET YOUR HANDS

OFF THE TOILET!

Optional Carpet Kits

Complete Kit of Standard Tools

45' stretch exhaust hose with cuff, QuickDri tool and mesh carrying bag

45' vacuum hose with gulper tool

Mesh bag to carry mirror squeegee, microfiber cloth and other tools

FLIP THE HEAD

Squeegee & Vac

Laminated operation line card to mount on machine or on wall

Sink fill adapter hose kit

Durable High/Low Pressure Spray Gun

REVOLUTION TILE & GROUT

The Revolution is a tile and grout-cleaning tool that provides remarkably smooth operation, gliding easily over the floor for less operator fatigue. It has a lightweight design — only 13 lbs.! — yet it's engineered for outstanding durability. It works on uneven surfaces like grouted tile or smooth surfaces such as concrete, and can be used with truckmounts or portables.

MODEL

1200REV - 12" Revolution hard surface tool, repairable ceramic swivel, 1.5"

COUNTERTOP REVOLUTION

The 7" Countertop Revolution is a smaller, hand held version of the popular Revolution tile & grout tool. Clean horizontal and vertical surfaces! The unique tear-drop design allows you to clean into the corners.

MODEL

700REV - 7" Countertop Revolution hard surface tool, Handles up to 2500 PSI.

DUAL HEAD SQUEEGEE

The dual head aluminum squeegee wand can be attached to any extractor with 1½" diameter hose to provide quick water recovery on hard surfaces. Dual heads to scrub tough spots with the brush, then flip the head over to the squeegee for extraction.

MODEL

334ACH-2
Dual head squeegee wand

SQUEEGEE WAND

The aluminum squeegee wand can be attached to any extractor with 1½" diameter hose to provide thorough cleaning of hard floor surfaces. Clean and effectively remove surface water quickly with this powerful and effective tool.

MODEL

334ACH - Single-jet squeegee wand

GLIDEMASTER HARD SURFACE

The Glidemaster™ hard surface tool is an practical way to blast dirt way from concrete, tile & grout, and other porous hard surfaces that are difficult to deep clean. Interchangeable heads make the Glidemaster versatile.

MODEL

8000AC - Glidemaster hard surface wand. (Pictured with grip handle and head). Sold as "Wand Only". Heads and grip handle sold separately.

HIGH PRESSURE SPRAY GUNS

EDIC high pressure spray guns are great for touch-free cleaning. Extension lances can help you clean high, low and in hard to reach places.

MODEL

9000AC - Spray gun
9000AC-24 - Spray gun with 24" insulated lance
9000AC-36 - Spray gun with 36" insulated lance

GLIDEMASTER HEADS

Glidemaster interchangeable heads give you cleaning power and versatility.

MODEL

8001AC - 6" head with brush
8002AC - 14" head with squeegee
8003AC - 14" head with brush

FIVESTAR

The amazing FiveStar™ is a small, self-contained unit with powerful brush agitation to clean carpets, hard floors and grouted tile. It weighs only 40 pounds so it's light enough for anyone to handle, plus the compact body design and fold-down handle make it a breeze to transport and store. Remove only two screws and the machine opens like a clamshell for fast service. The FiveStar is small enough to clean tight spaces and corners yet powerful enough to perform well in any commercial setting. A revolutionary bladder design allows you to fill and empty out of the same bucket and eliminates the need to pour solution into the machine. Simply fill the bucket, set it on the machine, close the lid and begin cleaning. No more spills or mess!

Fold-down handle for easy storage and transport

POLARIS 801PS, 1201PS

For wide open spaces where productivity is the bottom line, the 800 and 1200 models clean quickly and efficiently. These larger self-contained units come equipped with dual vacuums to more thoroughly clean and dry carpets. The Polaris has a built-in silencer so you can clean without interrupting the workflow. Top quality construction, remarkable ease of operation and versatility combine

Quick-fit accessories

for a machine that consistently outperforms the competition. Dual lift-off recovery buckets with no hose to detach allow easy emptying. Maintenance is a breeze as well—just remove two screws and open like a clam-shell for quick internal access.

Optional valve allows you to adjust the performance of the machine for regular maintenance or heavy-duty restorative cleaning.

FEATURES

- Large wheels, adjustable handle and lightweight construction team up for easy handling and storage
- Optional accessories quickly attach to the rear of machine for cleaning stairs, upholstery, etc.
- Patented dual lift-off recovery buckets provide quick and convenient emptying
- Patented four-wheel design for balance and reduced turning radius
- High speed brush motor and brush guarantee powerful agitation to release deeply embedded soil and grit, extending carpet life
- Patented brush system utilizes fully sealed stainless steel ball bearings for years of trouble-free operation

SUPERNOVA

Optional accessories
for carpet cleaning

There is literally nothing like the Supernova series—remarkable self-contained carpet extractors that clean in both forward and reverse! The patented two-way system provides unparalleled productivity in any setting—clean up to 4,000 square feet of carpet in one hour. All models operate forward in hallways and other open areas, but with a simple pull of a lever instantly change to reverse to clean corners and other tight areas for a dramatic reduction in labor costs. A specially designed vacuum head allows cleaning on hard floors in addition to carpets, without any cumbersome attachments. Just walk off carpet on to hard floors—it's that simple. Dual vacuum motors and a 19" cleaning width on the 800 and 1200 models combine with a host of other exclusive features to guarantee unrivaled performance.

BRAVO SPOTTER

AVAILABLE WITH HEAT!

The Bravo spotter delivers incredible efficiency and power in a deceptively small package. No set up time—simply unload and begin cleaning immediately. Compact size and maneuverability make it ideal for spotting and quick cleaning of small carpeted areas, upholstery and auto interiors. Operators will appreciate the specially designed molded-in holders that carry spray bottles, leaving the hands free. Over time it's a winner too, thanks to the upright-mounted vacuum motor and oversized recovery tank that combine to insure longer motor life.

FEATURES

- Optional in-tank heater delivers 150-degree heat (339MH-HT)
- Unique molded-in holders carry spray bottles for greater ease
- Large six-inch wheels and an optional transport handle plus cord wrap assembly make it a snap to wheel about
- Quickly opens up for easy servicing and repair
- Large porthole on recovery tank allows easy access for odor-free maintenance

OPTIONAL ACCESSORIES

Porthole allows easy access to recovery tank

GALAXY 2000

Our exclusive line-up of Galaxy carpet extractors come “heat-ready.” Life’s little decisions just got a whole lot easier! You can purchase any Galaxy without heat and if you change your mind, no problem. Simply order our external heater, attach to your machine in seconds and you are now cleaning with HEAT. Placing the heater on the outside insures that everything on the inside of the machine runs cooler, extending the life of the vacuum and pump motors. The stainless steel heater tank is guaranteed for life. If a repair is necessary, simply lift the heater off the back of the machine. Meantime, you can continue to use the unit without heat.

From a seller’s standpoint, there’s no need to purchase both heated and non-heated units—just stock machines and heaters. Your customers can start with a non-heated model then upgrade later to heat without having to purchase a whole new machine.

*Not Heat Ready | ∞20 amp circuit required

FEATURES

- Exclusive heat-ready system offers the ultimate in versatility
- External heater makes repairs a snap and keeps heat away from the motor compartment
- Tough roto-molded body stands up to the rigors of a demanding work environment and has a lifetime warranty
- Upright-mounted motors along with a special intercooler guarantee long life and durability
- Standard 5-gallon bucket fits under drain valve for easy emptying
- Opens quickly like a clamshell for easy servicing
- Top-mounted switches for easy access
- Sealed motor cavity insures that spills on the outside stay out

GALAXY PRO

HEAT READY

The Galaxy Pro is manufactured with the ability to easily add an external water heating system to the machine at anytime. Using hot water when cleaning carpet with an extractor increases cleaning results and productivity dramatically, and reduces the overall cost of cleaning. On-demand heat is a must have option to clean heavily soiled carpets.

FEATURES

- Exclusive heat-ready system offers the ultimate in versatility
- External heater makes repairs a snap and keeps heat away from the electrical components in the motor compartment.
- Tough roto-molded body stands up to the rigors of a demanding work environment and has a lifetime warranty
- Upright-mounted vacuum motors along with a special intercooler guarantee long life and durability
- Standard 5-gallon bucket fits under drain valve for easy emptying
- Opens quickly like a clamshell for easy servicing
- Top-mounted switches
- Sealed motor cavity insures that spills on the outside stay out
- Detachable cord makes it easy to drop the cord and wheel the machine to a drain or toilet for emptying
- Galaxy Pro CX offers 500 psi, dual 3-stage vacs, 190" lift all on a single cord
- Heat ready

OPTIONAL ACCESSORIES

GALAXY 5 AVAILABLE HEAT READY!

One look at our compact yet powerful addition to the Galaxy series and you'll realize that it is possible to have your cake and eat it too! The Galaxy 5 was designed for remarkable heat and power all housed within an incredibly lightweight and portable package. The Galaxy 5 is an obvious choice for auto detailing and for those jobs where a small yet effective unit makes more sense. It's light enough for anyone to handle and the fold-down handle makes it a snap to transport and store. We've also added an exclusive baffle system for exceptionally quiet operation. The optional external heater can be removed in seconds if a repair is necessary with no downtime to the Galaxy 5.

POWERMATE

1204ACH

Why use a standard wand when you can get a combination of powerful brush agitation and speed in a super lightweight attachment with wheels—all at a competitive price! So lightweight and maneuverable, the Powermate can triple your productivity. No more backaches and fatigue from slow, tedious cleaning with a wand. The Powermate attaches to any portable unit to remove deeply imbedded soil and grit at record speed! A high-speed cylindrical brush gets down to the base of the carpet fibers for more effective cleaning. Available with 1½" diameter handle. For use up to 500 psi. Order factory installed part number 00206-1A receptacle with your EDIC extractor to have the ability to plug the power cord from your Powermate directly into your machine instead of an outlet.

FEATURES

- Weighs only 15 lbs.
- See-through front cover
- Sealed, stainless steel ball bearings
- High-speed 2500 RPM brush for deep cleaning
- Heavy-duty aluminum handle
- Adapts to all EDIC extractors

OPTIONAL ACCESSORIES

B00216 Adapter to plug Powermate into standard wall outlet
00206-1A Receptacle, power wand (factory installed)

1800AC-200

The ultimate in speed and power for a deep down clean! Powermate 1800AC attaches to any portable or truckmount extractor for cleaning tough, dirty high-traffic areas. An 18" wide cleaning path and high-speed brush save valuable time and reduce operator fatigue. The power brush is designed to clean right up to baseboards and into corners. Its fully adjustable handle fits any size operator and the low profile makes it a breeze to get under furniture. For use up to 500 psi. Now available in 2" to adapt to most truck-mount units.

FEATURES

- 0-90 degree adjustable handle plus fingertip controls for easy handling
- High-speed chevron-style brush for deep cleaning
- See-through sight glass to monitor recovery
- Heavy-duty steel handle
- Adapts to all EDIC extractors
- 5 Spray tips

GLIDEMASTER

CARPET WANDS

Single or Dual-Jet Stainless Steel Wands

The Glidemaster wands allow for easy pickup under furniture and desks. The head is winged to prevent overspray and the insulated handle, valve lever and grip ensure operator comfort. The dual-jet version has an S-bend for superior pickup under all types of furniture. Dual-jets guarantee maximum pressure for fast and thorough cleaning. Standard or high-pressure models available—up to 1000 psi. 1½" diameter.

TRITON

CARPET WAND

Light Weight with Superior Airflow

EDIC's Triton Carpet Wand is the latest in carpet cleaning technology. It provides a lightweight and durable alternative to the traditional stainless steel wand. The head of the Triton is not only designed for higher air speed, but also even/consistent air speed across the whole width of the wand head, providing optimum water recovery.

Talk about durability – the wand shoe is made of UHMW plastic which has the highest impact strength of any thermoplastic presently made. The wand glides easily across the carpet and wears less because the UHMW plastic shoe has an extremely low coefficient of friction.

MODELS

Weight: 3 lbs. Ship Wt: 5 lbs.

AVIATOR

Axial Fan

Superior performance, design and engineering makes our Aviator axial fan the most efficient in the industry, providing more CFM with a lower amp draw. Use this large-sized blower to tackle even the toughest water damage restoration and carpet drying jobs in a hurry.

With an amazing velocity of 3000 CFM at a super-low 2.3 amps, the Aviator literally blows away the competition! The bottom line is a much faster drying time which puts more money in your pocket. A built-in GFCI outlet means you can link together multiple units using only one 15-amp circuit for the really big jobs. Plus the dual-direction airflow and choice of drying positions make it extremely versatile.

The Aviator axial fan is uniquely designed with 360-degree stacking for easy loading and storage. It's lightweight with an ergonomically-designed handle and convenient cord wrap for easy transport and maneuvering. Comes complete with an hour meter to monitor usage.

FEATURES

- The most powerful blower in its class with a velocity of 3000 CFM
- Built-in GFCI outlet makes it easy to daisy-chain multiple units on a single 15-amp circuit
- Hour meter monitors usage
- Exclusive 360-degree frame allows for easy stacking of units
- Circuit breaker protects air mover and attached devices
- Durable polyethylene housing in granite color that retains its brand-new appearance
- Low 2.3 amps

Built-in GFCI outlet for linking multiple units on a single circuit

AQUA DRI

Portable Air Mover/Carpet Dryer

Joining the ranks of our legendary 3004/3005 Aqua Dri series, is the new 3007ADN. The 3007ADN features a 2.9 amp, 2 speed, 1/3 HP motor that allows you to daisy chain up to 4 units on one circuit. At 3500 CFM on high and 3100 CFM on low, long dry times are history! Not to be ignored, our popular 3004ADN and 3005ADN have received a useful performance increase. At high speed, the 3004ADN now puts out a whopping 3700 CFM and the 3005ADN performs at an incredible 4500 CFM with no increase in amp draw. Now with three models to choose from, there is an Aqua Dri for every situation.

FEATURES

- Exclusive hi-tech design makes it the most versatile, compact and portable air mover in the industry
- Heavy-duty housing is made of durable roto-molded polyethylene
- Balanced carry-along handle distributes weight evenly for superior portability
- Easy to store or stack for transport
- Thermally protected motor

CFM is calculated by averaging measurements at the center and the outer edges of the vent.

Accordion hose attachment for attics and other hard-to-reach places

HEAT 'N' RUN™

External Heating System

A proven performer, the EDIC heater system is the most reliable and effective way to clean with heat.

- Specifically engineered to improve the performance of your HEAT READY GALAXY, GALAXY PRO, and select GALAXY 5 models. Add heat to your HEAT READY machine anytime!
- The only EXTERNALLY MOUNTED heater that you can add or remove in seconds. If the heater requires servicing, simply dismount and continue working with your Galaxy extractor while your heater is serviced.
- The electrical components and heat element have received upgrades to ensure and even longer life.
- Stainless steel tank and heat element eliminate corrosion and clogs that can disrupt your workflow.
- Our 2000 Watt model offers 190-200 degrees (Fahrenheit) within 90 seconds.

Look for the "HR" (Heat Ready) designation on the model number to ensure compatibility with our 2000 Watt heaters.

SPECIFICATIONS

CIRCUIT LOCATOR

So you've got two power cords and you need to find outlets on different circuits? No problem! Just plug the circuit locator with an extension cord into two wall outlets — the sensor instantly lights up when it's good to go. Use it anytime for any equipment. Prevents tripped breakers and potential power overload by taking the guesswork out of locating separate circuits.

MODEL: 988CS- with 1 wall outlet plug and one twist-lock to fit EDIC equipment

MODEL: 989CS- with 2 wall outlet plugs

GALAXY 5 & Auto 3000

COMES STANDARD WITH HEAT!

The GALAXY 5 and GALAXY AUTO 3000 are ready to meet and exceed the expectations of even the most demanding automotive detailers. Lots of heat, a single high performance 3 stage vacuum, and a low flow pump combine to yield squeaky clean automotive interiors and faster dry times.

The key to our single cord, heated, high performance automotive detailing extractors is our state of the art LOW FLOW 100PSI pump. Our pump provides a lower moisture output compared to our standard carpet extractor pumps, while still providing a powerful agitation to clean even the most soiled automotive interiors and carpets. This lower moisture output requires less energy to extract and less energy to heat.

The Galaxy 5 and AUTO 3000 come with everything you need, just plug and play. The standard kit includes a 15 ft. hose assembly, stainless steel auto upholstery tool and the 1000 WATT heater. The heater provides a consistent 170 degrees of heat in 90 seconds and it is externally mounted. Should the heater need servicing, you can remove it in less than 15 seconds and send it out without any down time to your extractor.

FEATURES

- Single cord operation
- 1000 watt in-line external heater delivering up to 170 degrees in just 90 seconds
- Durable stainless steel heating chamber and heating element
- Exclusive external heating system for easy removal and repair
- External heater design removes heat from the motor compartment keeping the vacuum motors and pump running cooler
- Opens quickly like a clamshell for easy servicing
- Powerful and lightweight – ideal for single operators
- “No drip” motor cavity guarantees water spilled on the outside of machine stays outside and won’t accumulate in the motor compartment
- Handle folds down for easy transport and compact storage (Galaxy 5 only)

OPTIONAL ACCESSORIES

- 1038-8002FB Stainless steel crevice tool

BRAVO SPOTTER

WITH HEAT!

The 17-pound Bravo spotter delivers incredible efficiency and power in a deceptively small package. No set up time—simply unload and begin cleaning immediately. Compact size and maneuverability make it ideal for spotting and quick cleaning of small carpeted areas, upholstery and auto interiors. Operators will appreciate the specially designed molded-in holders that carry spray bottles, leaving the hands free. Over time it's a winner too, thanks to the upright-mounted vacuum motor and oversized recovery tank that combine to insure longer motor life. The Bravo automotive unit comes complete with a vacuum and solution hose assembly and a stainless steel auto-detailing tool.

FEATURES

- 1500 watt, in-tank heater delivers 150 degree heat
- Unique molded-in holders carry spray bottles for greater ease
- Stainless steel heating element
- Large 6" wheels and an optional transport handle plus cord wrap assembly make it a snap to wheel about
- Carry-along handle increases portability
- Small and light enough to carry with one hand
- Quickly opens up for easy servicing and repair
- Large porthole on solution tank allows easy access for odor-free maintenance of recovery tank

20W	20-gallon poly (with 8-piece deluxe tool kit)
20WS	20-gallon stainless steel (with 8-piece deluxe tool kit)

ATLAS (patents pending)

After years of careful planning, our new Atlas is taking the backpack vacuum market by storm. Feature for feature, it simply defies the competition! It's light enough for anyone to handle and the ergonomically-designed Velcro straps at the chest and hips result in a comfortable fit for virtually any sized operator. A special slide adjustment hooks the shoulder straps together for a higher range of motion. The on/off switch is at the hip level and mounted on top for unparalleled ease of operation. Our unique airflow design makes this unit quieter than most and the baffled exhaust goes out the back, away from the operator, for a higher level of comfort. The Atlas comes with our extraordinary Ultrastat™

3-ply composite filter treated with an anti-microbial agent that provides exceptional airflow even when full, allowing for greater productivity. This exclusive bag is fitted with a durable plastic rim for an airtight seal around the top, and the seams are sonically welded (as opposed to glued). The result is higher dust retention, and a much longer filtration cycle.

FEATURES

- Longer exhaust chamber and diffused exhaust air for quiet operation
- EDIC Ultrastat™ filters have better filtration efficiency, greater dust retention and longer useful life than Micro filter bags because Ultrastat's™ revolutionary synthetic material allows greater air flow even when the bag is full
- 3-position hip adjustment for wider or narrower hips allows the unit to sit more comfortably on the hips
- Ergonomically designed harness with multi-adjustable settings for optimum comfort
- Lightweight – only 10 lbs.
- Hip-mounted switch results in easy on/off
- Precision-molded cloth filter bag rim holds it's shape to prevent collapsing inside the unit when the bag is full
- Optional HEPA filter available on 10-qt units
- Available in 220-volt

BACKPACK VACUUM ACCESSORIES

STANDARD TOOL KIT

361AC Kit includes carpet tool with scallops, crevice tool, 2-pc S-bend wand, dust brush, 5" upholstery tool and slide-on brush for upholstery tool.

MIXED FLOOR KIT

362AC Kit includes standard tool kit plus 14" floor tool with horsehair brush.

TURBO BRUSH KIT

363AC Kit includes turbo brush head, telescopic wand, curved wand handle, crevice tool, dust brush, 5" upholstery tool, and slide-on brush for upholstery tool.

SIDEWINDER KIT

364AC Kit includes 14" scalloped carpet tool, crevice tool, dust brush, 2-pc aluminum straight wand, and upholstery tool.

INDUSTRIAL KIT

365AC Kit includes combo floor tool, telescopic wand, curved wand handle, crevice tool, dust brush, 5" upholstery tool and slide-on brush for upholstery tool.

FILTERS

The revolutionary new Ultrastat™ filters are made from a high-efficiency synthetic composite treated with an anti-microbial agent. They have greater dust retention, better filtration efficiency and a longer useful life than a standard microfilter because they provide a much lower pressure

drop and therefore better CFM for longer periods of time. The Ultrastat™ filters are more durably constructed because the seams are sonically welded, as opposed to glued, and the rim is made from a durable plastic instead of cardboard.

Cloth Filter

- L12009 6-quart filter
- L12010 10-quart filter

Ultrastat™ Filter

SATURN

HD LOW SPEED FLOOR MACHINES

HD stands for “Heavy Duty” and that is exactly what the Saturn HD low speed floor machine is. With its all-metal construction and steel planetary gear boxes, the Saturn can stand up to the heaviest workloads, yet the ride is surprisingly smooth and quiet. The high torque 1.5 HP 66 frame motor with triple planetary gears is totally enclosed and fan cooled to provide exceptional power and to withstand dust, moisture and other harsh conditions. The rugged HD units are ideal for sanding, screening, stone care, and concrete work. Features like the quick and easy handle adjustment, anti-fatigue design, and the exclusive “lockout lever” for safe two-handed start up make this machine operator friendly and a winner in every commercial setting. Available in 4 different sizes, there is a perfect HD low speed Saturn for any size job.

FEATURES

- All-metal construction assures durability
- Hi torque, totally enclosed, fan cooled motor handles dust, moisture and other harsh conditions
- The rugged HD units are ideal for sanding, screening, stone care and concrete work
- All-steel triple planetary gearbox provides heavy duty yet quiet operation
- Dual-trigger negative pressure switch allows operator to run with either hand
- Turn a 13-inch machine into a 20” or any other combination, by removing just four bolts
- Exclusive “lockout lever” is designed so operator can safely activate motor with both hands on the grips
- Wide-gripping handle locking mechanism guarantees a tight lock and smooth adjustment
- Non-marking PVC bumper prevents marks on walls and furniture

SATURN

LOW SPEED FLOOR MACHINES

No job is too tough for this rugged series of floor machines from EDIC. With its all-metal construction and steel planetary gear boxes, the Saturn can stand up to the heaviest workloads, yet the ride is surprisingly smooth and quiet. The low speed models are built specifically to handle the stress associated with stripping and scrubbing hard floor surfaces as well as bonnet cleaning and shampooing carpets. Features like the quick and easy handle adjustment, anti-fatigue design, and the exclusive "lockout lever" for safe two-handed start up make this machine operator friendly and a winner in every commercial setting. Available in 4 different sizes, there is a perfect low speed Saturn for any size job.

SATURN

HIGH SPEED BURNISHERS

Available in traditional style or 17" compact design with fold-down handle!

The Saturn burnishers make it simple to bring a smooth, super high-gloss luster to any hard floor surface. Watching these machines in action will make anyone a believer! The perfect combination of weight and high speed produces a spectacular finish in record time. Brand new to the line-up is a 17" 2000 RPM model with a fold-down handle and a special compressed design for the ultimate in portability and storage plus greater maneuverability in tight spaces. Our traditional 20" models are available in 1500 or 2000 RPM and both the traditional and fold-down models are designed with an all-metal construction including stainless steel brush cover, making them as durable as they are dependable. All models come complete with flex-lock pad driver and high-speed pad.

FEATURES

- Multi-V belt drive reduces load on bearings and extends motor life
- Smooth operation for reduced operator fatigue
- Unique lockout system prevents accidental start-ups and allows machine to be activated with both hands on the grips
- All-metal chassis plus stainless steel cover assure long life and dependability
- New 17-inch model folds-down for super easy storage and transportation
- Cool running 1.5 HP high efficiency motor
- Rear transport wheels for easy turning and increased mobility
- Easy motor access for quick servicing
- 75-foot power cord

DUAL SPEED FLOOR MACHINES

Get more bang for your buck with one machine that does the work of two! Strip, scrub, spray-buff, polish, shampoo, bonnet clean...you name it, this machine does it all! Designed for professional floor care maintenance, the dual speed floor machines from EDIC are equipped with long-wearing steel triple planetary gearboxes, providing heavy duty yet quiet operation. Safety comes first with the exclusive “lockout” lever that allows the motor to be activated while keeping both hands on the handle grips. Use the lower speed to scrub and strip then just flip the switch to high speed and polish floors to a glossy luster. Operation is smooth and easy in even the toughest commercial settings.

FEATURES

- All-metal construction with stainless steel brush cover, heavy duty chrome-plated steel handle and 66 frame motor assure durability
- All steel triple planetary gearbox provides heavy duty yet quiet operation
- Turn a 17-inch machine into a 20” machine, or vice versa, by removing just four bolts
- Dual trigger negative pressure switch allows operator to run with either hand
- Safe two-handed start-up with exclusive “lockout lever”
- Cool running 1.5 HP high efficiency motor
- 50-foot power cord
- Non-marking PVC bumper prevents marks on walls and furniture
- Available in 17” or 20” diameter

FLOODBUSTER

FLOOD PUMPER

Superior Water Recovery

Lightweight | Compact

Durable Construction

The new, super-duty high volume, FloodBuster flood pumper makes quick work of the toughest water restoration jobs. The FloodBuster allows easy transport to and from the job site due to its compact design, and single-person load capabilities in any type of vehicle. Its compact design, with 12" rear wheels, 5" front swivel casters and stair climbing handle design, allows for easy storage in any location.

The FloodBuster 50 GPM (single cord) comes standard with a 1.5" diameter dump hose which exceeds the standard garden hose that comes with many competitor equipment.

When you choose the FloodBuster, you know that you'll have industry leading performance, safety, and water removal in this BEST IN CLASS machine.
